

MK Air CC vs Stoke Hammond CC

FCCL Division 2 — Pre-Match Intelligence Briefing

Saturday 25 April 2026

13:30

The Recreation Ground (Away)

Stoke Hammond form:

W W W W W

MK Air form:

L L L L W

Stoke Hammond CC — Season Overview

2025 Division 3: P15 W11 L3 (73% win rate)

Promoted to Division 2 — first time since 2015

Historical Div 2 record: W9 L23 (28% win rate)

Key stat: Top 4 batters scored 2,481 runs in 2025

Hasan Ali: 60 wickets — one-man bowling army

After top 4: Batting averages drop to 8-21

Their Danger Men — MUST Contain

THREAT

1. Khalid Khan — Captain / Talisman

2025: 719 runs | Avg 28.76 | HS 102 | SR 80.91 | 31 games | 2 fifties, 1 hundred

2024: 411 runs | Avg 19.57 | Plays every single game. Also bowls part-time (3 wkts).

 *Plan: He accumulates (SR 80) rather than attacks. Bowl tight 4th/5th stump line. Sunit Sar or Rajesh Rajamannaar to target him. Get him in the first 5 overs and their confidence drops.*

THREAT

2. Naveed Rashid — Explosive Match-Winner

2025: 707 runs | Avg 33.67 | SIX fifties | SR 124.64 — strikes at nearly 125!

 *Plan: Your biggest threat. Saravana's spin is key — he won't have faced quality spin in Div 3. Bowl tight, no width. Set deep point and deep midwicket. If he swings, he'll hole out eventually.*

THREAT

3. Alex D'Souza — Two-Year Consistent Anchor

2025: 602 runs | Avg 40.13 | TWO hundreds (HS 123) | SR 73.62

2024: 745 runs | Avg 32.39 — their top scorer last year too.

 *Plan: He's slow (SR 73). Let him bat but rotate bowlers at him. He eats deliveries which pressures partners. Get him early and their middle order is exposed.*

THREAT

4. Shrikanth Raparathi — Big-Game Player

2025: 453 runs in 11 innings | Avg 45.30 | HS 116 | SR 113.07

2024: 427 runs | Avg 30.5 | HS 151 — highest average AND high strike rate.

 *Plan: Most dangerous batter. Your best bowler (Sunit Sar) must bowl at him. Tight lines, no room. He scores quickly — can't let him settle.*

THREAT

5. Hasan Ali — Strike Bowler + Lower-Order Hitter

Bowling 2025: 60 WICKETS | Avg 14.32 | Econ 6.14 | Best 7/25 (inc. 5-fer) | 140 overs bowled

Batting 2025: 259 runs | HS 69 — even their No.10 can bat!

2024: 32 wickets at avg 17.06.

 *Plan: He'll bowl you out if you attack him. Shashi Kiran and Zubair must see him off — play him out, don't attack. He bowls 140 overs/season so may tire in later spells. Target runs off the other end.*

Their Weak Links — TARGET These Players

TARGET Rajat Rajat — Inconsistent Hitter

Batting: 386 runs | Avg 21.44 | SR 141.20 — swings hard but gets out cheaply

Bowling: 15 wickets | Econ 4.59 — part-timer

 *Bowl full and straight — he'll try to hit over the top. Attack his bowling for runs.*

TARGET Ching Yang — Weak Batter, Part-Time Bowler

Batting: 191 runs | Avg 19.10 | SR 79.25

Bowling: 3 wickets in 30 overs | Econ 5.60

 *Neither proper batter nor bowler. Attack his bowling. When he bats, bowl straight — he'll nick off.*

TARGET Mohammed Ejaz Farooq — Tail-ENDER

Batting: 96 runs in 15 innings | Avg 8.73 | SR 65.81

 *Genuine tail. Short ball or full yorker will finish him quickly.*

TARGET Manish SiriMalla — Can't Bat, Tight Bowler

Batting: 86 runs | Avg 10.75

Bowling: 18 wickets | Econ 4.71 — careful, he's economical!

 *Quick wicket when batting. But respect his bowling — rotate strike, don't attack wildly.*

TARGET Ammad Rashid — Lower Order

Batting: 116 runs in 16 innings | Avg 11.60

 *Genuine lower order. Quick wicket expected.*

Their Bowling Attack — How to Score Against Them

Bowler	Wkts	Econ	Avg	Best	Your Plan
Hasan Ali	60	6.14	14.32	7/25	⚠️ RESPECT. See him off. Don't attack early.
Naeem Ahmed	29	6.04	19.34	4/28	Second strike bowler. Tight economy. Rotate strike.
Kranthi Patlolla	21	3.01	10.19	4/31	⚠️ DANGER — economy 3.01 is elite. Must find singles.
Manish SiriMalla	18	4.71	20.78	4/29	Tight but not lethal. Work singles off him.
Majid Quereshi	17	4.31	22.59	3/21	Medium threat. Can be attacked in middle overs.
Rajat Rajat	15	4.59	16.87	4/21	✅ Part-timer. TARGET for runs.
Muhammad Tariq	14	4.35	11.64	3/23	Low avg — gets wickets cheaply. Be careful.
Zahid Mehmood	11	9.09	22.82	2/16	✅ Economy 9.09 — leaks runs. ATTACK him.
Devansh Sharma	10	8.24	27.30	2/19	✅ Economy 8.24 — another run-scoring opportunity.
Aamir Butt	9	8.50	22.67	2/17	✅ Economy 8.50 — attack if he bowls.

Key insight: Survive Hasan Ali (econ 6.14) and Kranthi Patlolla (econ 3.01). Then target Zahid Mehmood (9.09), Devansh Sharma (8.24), and Aamir Butt (8.50) for boundaries. Their part-timers leak runs badly.

Our Squad — Roles & Matchups

#	Player	Role	Key Matchup
1	Srikanth Chundi	Opener (Bat)	Must survive Hasan Ali's new ball spell
2	Shashi Kiran	WK / Bat (Anchor)	See off Hasan Ali. Scored 65 in last match — repeat needed
3	Arjun Kulkarni	Bat	Target Rajat Rajat and Zahid Mehmood's overs
4	Zubair Chaiwala	Bat All-rounder	Anchor vs Kranthi Patlolla. Must bowl 5+ overs
5	Vandit Maram ★	Batting All-rounder (Medium Pace)	15-yr-old developing star. Bat with freedom vs part-timers. Bowl 4-5 overs of medium pace — use him as surprise weapon vs their middle order. His pace can trouble batters used to spin in Div 3.
6	Vishnu Kumar	Bat	Counter-attack vs part-timers in middle overs
7	Neel Kavali	Bat All-rounder	Finisher role. Bowl 3-4 overs as 5th bowler option
8	Raghav Pyaraka	Bowl All-rounder	Bowl at Khalid Khan. Tight lines, 4th stump
9	Saravana Subra	Spinner	KEY MATCHUP vs Naveed Rashid (SR 124). Spin to contain him
10	Rajesh Rajamannaar	Bowl All-rounder	New ball vs D'Souza. Took 3/29 in last match
11	Sunit Sar	Bowler	Strike bowler vs Raparathi (avg 45). Best bowler vs best batter

? Pre-Match Questions Answered

1. Is our team balanced for this match?

Your squad has 6-7 batting options and 4-5 bowling options. Against Stoke Hammond's deep batting (even their No.10 Hasan Ali scored 259 runs), you need all 5+ bowlers firing. Zubair, Neel, and **Vandit Maram** MUST bowl their allocation — Vandit's medium pace gives you a genuine 6th bowling option and variety that Div 3 batters won't expect. Saravana is your only spinner — he's critical. **Verdict: With Vandit bowling medium pace alongside Sunit, Rajesh, Raghav, Saravana, and Zubair/Neel, you have 6 bowling options — that's well balanced.**

2. Opponent's strong and weak points?

- **Strengths:** Top 4 batters scored 2,481 runs combined. Hasan Ali is a one-man bowling army (60 wkts at 14.32). Five bowlers with economy under 5. Won 11/15 in 2025.
- **Weaknesses:** After top 4, batting collapses (positions 5-11 avg 8-21). Historical Div 2 record is W9 L23 (28%). No bowler besides Hasan Ali has a 5-fer. Zahid Mehmood leaks at economy 9.09. They're a Div 3 team stepping up — pressure of the unknown.

3. How can we exploit their weaknesses?

- Get their top 4 out cheaply — after that, their middle order (avg 8-21) will fold
- Use Saravana's spin against Naveed Rashid (SR 124) — he attacks and won't have faced quality spin in Div 3
- Bowl dry against D'Souza (SR 73) — don't give boundaries, he'll eat deliveries and pressure partners
- Attack Rajat's bowling (part-timer) and Zahid Mehmood (economy 9.09) for runs
- Exploit their Div 2 inexperience — they haven't played at this level since 2015

4. What went best in our last match? (MK Warriors away — WON)

- Shashi Kiran's match-winning 65 (7 fours, 92 balls) — anchored the innings
- Rajesh Rajamannar's 3/29 off 8 overs — controlled their batting
- Team posted 197 and defended it — showed composure under pressure
- Collective bowling discipline across all bowlers

5. What can we fix from last match?

- Top order must fire — Srikanth Chundi averaged ~10 in FCCL 2025. Against Hasan Ali (60 wkts), he needs to be solid
- Tighten bowling extras — wides will be punished by Stoke Hammond's aggressive batters
- Need a Plan B if Sunit Sar is expensive — their tail can bat (Hasan Ali 259 runs)
- Strike rate in middle overs — can't let Kranthi Patlolla (econ 3.01) strangle the scoring

6. How to use match conditions to our benefit?

- **Away match** at The Recreation Ground — their home turf, their conditions
- **April 25th = early season** — likely green, damp pitch favouring seam bowling
- **Win the toss → BOWL FIRST.** Use moisture. Sunit Sar and Rajesh with new ball to target their top 4
- If batting first: Target 180+. Their bowling is tight so don't expect to score freely. Build partnerships.
- If pitch dries: Saravana's spin becomes lethal against their weaker middle-order batters (avg 10-19)

Match Day Game Plan

TOSS: Win it → BOWL FIRST. Early season, away ground, damp conditions. Use seam movement to attack their top 4.

BOWLING PLAN (if bowling first):

- Overs 1-10: **Sunit Sar + Rajesh Rajamannaar** — new ball, target Khalid Khan and Naveed Rashid. Tight 4th stump line. Slips in.
- Overs 10-20: **Saravana Subra** (spin) + **Raghav Pyaraka** — Saravana vs Naveed Rashid is the KEY matchup. Dry up runs.
- Overs 20-30: **Vandit Maram** (medium pace) + **Zubair/Neel** — Vandit's pace is a surprise weapon against their middle order (avg 8-21). His youth and energy bring a different angle. Use him in short, aggressive spells of 3-4 overs.
- Overs 30-40: Rotate all bowlers. Bring back Sunit/Rajesh for the kill. Attack their weak tail.
- **Target:** Get their top 4 out for under 120. Their tail will fold.

BATTING PLAN (chasing or batting first):

- Overs 1-10: **Srikanth + Shashi Kiran** — SURVIVE Hasan Ali's opening spell. Don't attack. He takes a wicket every 15 balls.
- Overs 10-20: **Zubair + Arjun** — build the innings. Target Rajat Rajat and Zahid Mehmood for runs.
- Overs 20-30: **Vandit Maram + Vishnu Kumar** — Vandit bats with freedom and confidence. At 15, he has no fear. Let him play his natural game against the part-timers. His strong batting can accelerate the scoring in the middle overs.
- Overs 30-40: **Neel Kavali** — finisher role. Kranthi Patlolla (econ 3.01) will be tight — just rotate strike against him.
- **Target:** 180+ if batting first. If chasing, keep wickets in hand for the last 10 overs.

FIELDING: Aggressive field for their top 4 — slips, close catchers. Spread the field for their middle/lower order — they'll give catches in the deep.

 **Key to winning: Get their top 4 out cheaply. Survive Hasan Ali. Score off their part-timers.**
